POTOSI, 1 1 1 MISSOURI.

Levi H. Rogers, who died in Perry, O. T., aged 87 years, had married eight times, each wife being of a different nationality.

Large cities change rapidly in these times. Boston's new railway terminal will require the clearing away of more than 200 buildings.

A leading railway journal says that 300 lines, aggregating 17,511 miles, are under construction in this country, but that only 20 per cent, will be finished this year.

The New York subtreasury has run short of \$1,000 notes. Notes of that denomination must be scarce. Quite a number of people out this way find their supply short also.

women how to look young one becomes impressed with the idea that perhaps as ambassador to Germany; William F. one of the best ways is to refrain from worrying about it.

Last year a Chicago girl took a header from her bicycle and was picked up by a young doctor, who married her the other day. We predict that bicycle accidents this year will be more numerous than usual.

The women of the country are to help Mark Twain in a charming way. A movement is on foot to pledge every member of a woman's club in the country to purchase at least one copy of his new book.

The New York Ledger mentions the striking fact that when Robert Bonner bought his first trotting horse in 1856 only 19 horses, living and dead, had trotted a mile in 2:30. Now there are more than 13,000 in the list.

The Philadelphia Record says that "Scott Zavolt, a Michigan merchant committed suicide by shooting at his train. residence." Later advices show that the residence escaped without a scratch. It appears that Scott shot himself in the vestibule.

The New York girl who traveled 18,-000 miles to Africa to wed, only to be disappointed, get her just deserts. Any girl who isn't satisfied with a common American or an English lord, and who must have an African prince or noth ing, deserves to be jilted.

Georgia claims to have a new variety of cotton which yields four bales per acre on average land, and Florida reports a new variety of corn which is wonderfully productive. The American farmer is a close observer of new things, and this is one reason why he does so much toward feeding the world.

In the sixteenth century the average length of a doctor's life was 36 years ? months, in the seventeenth century it was 45 years and 8 months, in the months, and in the nineteenth, 58 years and 7 months. It thus appears that doctors were 300 years in learning not to take their own medicine.

In bicycle literature the reader is told that nobody can ride a wheel in France without puncturing a tire, because the roads are strewn with small nails. Labored investigation discovered that these nails dropped out of the soles of peasants' wooden shoes, slightly shrunken by the sun. The man who invents a punctureless tire will make a fortune in France.

Four Buffalo (N. Y.) reporters attended a prize fight in a professional capacity, and, the "mill" being raided by the police, were promptly captured with the party. Judge King, of that city, before whom they were brought, released them, declaring that it was a principle of law as well as of common sense that three kinds of men were permitted to go anywhere without blame-doctors, clergymen and reporters.

C. A. Totten, the forecaster, comes forward once more to remark that "we are at the initial date for the long-predicted beginning of the end." "Longpredicted" is the proper term to use in this connection. Since the days of Mother Shipton, and even centuries before that, these predictions of the approaching end of the world have been made with frequency and regularity. Even Mr. Totten has made quite a number of them, changing his dates when the expected failed to come to pass.

The Indian is coming to the front with greater rapidity these days. Last fall Metoxen, Lone Wolf and other young students of the Carlisle Indian school won distinction on the football gridiron. and now it is announced that a fullblooded Indian rejoicing in the poetic name of Sockalexis is to play on one of the National league baseball teams this season. When the aborigine gives up lacrosse and takes to the American national game it is about the best evidence that his complete civilization and redemption from savagery are only a question of a very short time. So mote it be.

Greater New York is now an accomconcerned, and only awaits the signatures of the governor and the mayors of New York, Brooklyn and Long Island City, which are assured. Under this charter the population of Greater New York, based upon latest estimates. will be 3,159,059, which will make it rank second in the world. Greater New York making it next in size to London. Its -from Mount St. Vincent to Tottenville. The street mileage of Greater New York is estimated at about 3,000.

FIFTY-FIFTH CONGRESS.

INTERESTING NEWS COMPILATION.

Proceedings of the Special Session. The United States senate began voting on the 31st ult, upon the miscellaneous amendments to the Anglo-American arbitration treaty. An amendment to the treaty was adopted providing that all questions of national policy, the Monroe doctrine, etc., shall be eliminated from the treaty and all subjects proposed to be submitted to arbitration shall be first submitted to the senate. In the house the Dingley tariff bill was passed by a vote of 205 to 122 and an amendment was adopted

giving immediate effect to the law. The tariff bill passed by the house was received by the United States senate on the 1st and referred to the finance committee. A resolution was introduced declaring that the United States senate should accord both parties to the conflict in Cuba full recognition as belligerents. The arbitration treaty After reading several articles advising was further discussed. The nominations of Andrew D. White, of New York, Draper, of Massachusetts, as ambassador to Italy, and Benjamin Butterworth, of Ohio, as commissioner of patents, were received from the president. In

the house no business was transacted. There was no session of the United States senate on the 3d. In the house the only business transacted was the adoption of the senate resolution providing for chartering a vessel to earry donations of food to the famine sufferers of India. Incidentally, Mr. Me-Millin (dem., Tenn.) suggested an amendment condemning England's national policy. Mr. Corliss (Mich.) introduced a joint resolution to revoke all the orders extending the application of the civil service laws which were made by President Cleveland during his last administration. Adjourned to

Advices say that the powers have ordered the admirals of the international flect to begin a pacific blockade of Athens.

LATER NEWS.

In the senate on the 5th Mr. Chandler rep., N. H.), introduced a bill "Abolishng competition in trade and production and authorizing combinations to enable merchants, manufacturers and producers of commodities subject to inter-state commerce to maintain prices and profits notwithstanding business lepression," which he said he would oress as an amendment to the railroad pooling bill, should the latter be prought forward. A resolution protesting against the trial of Gen. Ruis Rivera by drum-head court-martial was adopted by a vote of: Ayes, 40; navs, 0. .The house was not in session.

A SPECIAL from Havana, on the 5th, aid: The prevailing belief is that Gen. Rivera will not be shot. An order is said to have come from Madrid to spare his life. This is not prompted by motives of humanity, but to make a good impression upon the United States and other nations. Gen. Wevler is furious, the report adds, and may cause the order to be withdrawn. In which case Gen. Rivera would be put to death.

THE Bethlehem (Pa.) Iron Co., on the 5th, made a shipment for the United States government to Sandy Hook, N. J., of 24 cannon, loaded on 24 flat cars. The shipment was made up principally of eight and ten-inch guns, being finished complete, ready for mounting.

A MOB of coolies, numbering about 5,000, engaged in an anti-foreign demonstration in Shanghai on the 5th. The volunteers were called out, and detachments of marines and sailors were landed to assist the authorities in restoring order.

THE supreme court of the United States, on the 5th, granted the motion to advance the case of the Joint Traffic summer at Lake Sunapee, near New- association, but set it for the second Monday of the October term, thus refusing a hearing for the present term.

THE United States supreme court, on the 5th, refused to grant the motion of Joseph Iizigi, late consul general of Turkey at Boston, for a writ of habeas corpus releasing him from arrest on the charge of embezzlement.

Among the nominations sent to the senate by the president, on the 5th. was that of Alfred F. Buck, of Georgia. to be envoy extraordinary and minister plenipotentiary of the United States to Japan.

THERE men were killed by asphyxiation at Dow's brewery. Montreal, Can., on the 5th. They were cleaning a beer tunnel, and were overcome by the carbonic acid gas which had collected at the bottom.

Nothing quite like the present | P. Wing, in Country Centleman. excitement over the suidenly-found riches and prospects of further finds, has been seen since the pulmy days Virginia. Nev., in the early seventies. Cripple Creek and Tombstone were never "in it" for unadulterried excitement. The town is wild with excitement because of two finds of marvelous rich bodies of gold ore. At Pichago mining district some 25 miles north of Yuma, on the California side of the Colorado river, there are the "Golden Dream" and "Noonday" mines. For several weeks the men at those mines have been getting into rich ore, and the owner has been offered as high as \$175,out for his mines.

On Thursday last men in both mines, at above the same hour, ran into ledges of one that yield over \$6,000 to the ton. Four specimens from these ledges were found to run \$2,750 per ton. Twelve carclessly-selected bits of rock assayed 83,120 to the ton. The ledges in the Pielineo district are all very large. One ledge of low-grade ore there is even 60 feet wide. No one can tell yet what the dimensions are of the ledge in which this rich ore has been found, but it is certainly a big one. Besides there is constantly coming into Yuma every day news of rich finds in the Gleason district. That is to miles east of Yuma, Aciz., near Tacan station, and is surrounded by desert.

Never breed unhealthy or unsound animals.

fat lambs Ground oats make a good feed for

growing pigs.

push the growth.

A little corn fed to sheep is beneficial; too much is detrimental. It is not what is eaten but what is digested that nakes bone and muscle. After the first week after farrowing

he sows should have all that they will Only the best sheep return a profit, while the poor ones are a burden to the others.

The easiest and best dehorning is that which is done before the calves are three months old. Willful neglect and insufficient feed

are effectual bars to success with any Feeding the lambs will pay, especially if they are small and it is desired to

If dehorning is to be done in the spring care should be taken to do the work as early as possible. With the horse in the proper condition depends the development of the

museles and its powers of endurance .-Farmer's Union.

Breeding for Results. If a dozen hens were selected from the best of the flock every year and used as breeders, a great improvement would be the result. The temptation to use eggs for hatching purposes from hens not ro selected should be resisted, and the entire lot of chicks should be produced from your select breeding pen. The selection of the male, he being one-half the pen, is of considerable importance. He should in all cases be a sturdy, strong, vigorous thoroughbred, not over two years of age. Practical points should always be given the preference over the fancy, and yet it pays to keep as well within the bounds of "fancy as may be possible. By following such lected. The tunnel was about a system you will be constantly improving your flock, and a family of hardy, active layers may thus in a short

time be produced.

Care in putting up eggs for market will, just as in all other lines of business, pay well. If all the dirty eggs are washed with a cloth dampened in warm water, their appearance will be greatly improved, and they will command from two to four cents more a dozen than though sent away in a soiled condition. It is this care in putting up their eggs for sale that forms one of the principal sources of profit to the men who are in the business for all that is in it. Where large numbers of eggs are handled it will pay to sort them, both as to size as well as color. But, above all things, have them clean.-Western Plowman.

Electricity on a Farm.

Consul Muth sends the state depart SHANGHAL April 6. - A mob of coolies. ment at Washington an interesting description of a farm in Mecklenburg, Germany, where electricity has been made to take the place of laborers in great part. A turbine drives a dynamo. which lights the barns, yards and dwellings and furnishes a current of low tension to work pumps, run strawcutter, lathe, grindstone, large hand saw and threshing machine. One machinist attends to the entire plant. which experience proves has reduced the expenses of the farm in a considerable degree.

Not a Well Day

Did She See For Months-Can Now Sleep Well, Eat Well, and Pains Have Disappeared.

"For several months my health had been failing, and I did not have a well day in this time. I had severe pains in my back, my limbs ached and I was restless at night. I suffered with loss of appetite and severe nervous headaches. A friend advised me to try Hood's Sarsaparilla. After taking this medicine for a while I found I was gaining in health rapidly. I now have a good appetite, can sleep well, and the pains with which I suffered have almost entirely disappeared. I am gaining in flesh. I am still taking Hood's Sarsaparilla and I recommend it wher-North Park Street, Chillicothe, Ohio.
